WELCOME TO WHITEMAN.

HIS NOBLE STAND ENDORSED.

The People Turn Out and Give Him a Royal Welcome Home—The Resolutions as Passed.

When it became known that the streets last evening that our Representative, William H. Whiteman, had returned home from Santa Fe, a resolution was quickly formed among a number of our leading citizens to give him an impromptu reception. A. A. Grant, with his accustomed liberality and public spirit, offered the use of the Opera House, while one or two others took a carriage and went over to the Major's residence. The Clipper band was quickly called into service and marched up and down Railroad avenue two or three times, which proved sufficient to notify our citizens that something unusual was about to happen at Santa Fe's Opera House.

In much shorter time than it takes to write it over 150 of our most prominent citizens had gathered together, and chosen Judge Trimble to preside over their deliberations.

The Judge made one of his old time speeches, thanking those present for the honor conferred upon him, and at the same time stating the object of the meeting. He said he had opposed Whiteman first and last, but he stood by him now, as every good citizen of the Territory should. Whiteman had made a noble record against the infamous "ring."

Postmaster Thomas Hughes was chosen secretary and then the guest of the evening, Representative Whiteman, was introduced to the audience.

After the applause that greeted the Major had died away, that gentleman went on and gave a clear, forcible and highly interesting account of his labors against the Capitol steel. He said that he started in alone to fight that bill, and by dint of steady work and a good deal of talking had managed to have it postponed. He then thanked those present for the very flattering endorsement they had given of his course; and said: "I shall remember this night as one of the most pleasing events of my whole life."

Col. J. H. Sullivan moved the appointment of a committee on resolutions, and Messrs. Sullivan, Burke and Wilson were named.

Postmaster Hughes was called upon, and in the course of a few remarks said: "McComas had better vote with the people down here or not come back to Albuquerque."

Gov. Stover was next called out and said that he proposed to say just what he meant. Mr. Whiteman deserved and had the heartfelt thanks of the whole Territory. He was a worthy Representative and one that all could feel proud of. He represented a great country and in such a manner as to make those who opposed him speak in the very highest terms of his noble stand. The speaker then paid his respects to Tom Catron, and told of his arrogant ways when he was United States District Attorney, but "He will find that there are men all over this Territory who will no longer bow the knee to him."

Page Otero was called for and responded by saying that he was in full sympathy with the meeting.

Bernard Rodey spoke a few words in favor of the cause.

Col. Sullivan extolled the high honors due to Mr. Whiteman and said everybody should feel proud of him.

A. M. Whitcomb said he was proud to acknowledge that he voted for Mr. Whiteman. He was proud of him. He had some things to tell of the "Ring" and their hirelings.

Gov. Stover spoke for the people of Gallup and Wallace and hoped both those towns would be kept in the country.

W. K. P. Wilson then read the resolutions as reported by the committee.

WHEREAS, the county of Bernalillo has but one representative in the legislature as organized; and

WHEREAS, it is a fitting and proper occasion for the people to express their approbation of the high and honorable character of our solitary representative in Santa Fe; therefore be it

RESOLVED, That the manly and determined stand which has been taken in the House of Representatives by Major Whiteman, in the interest of his constituents and the people of the Territory, meets with the cordial approbation and the most hearty support and co-operation of the citizens of Bernalillo county.

RESOLVED, That the brave and noble fight which he has been making, almost single handed alone, against the schemes of fraud and plunder with which the legislature is being inundated, entitles him to the gratitude of the people of the entire Territory, and we hereby pledge him

THE LOWER HOUSE

OF CONGRESS IN SESSION.

Arguments in Favor and Against the Bonded Extension Bill—Bills Introduced and Referred.

WASHINGTON, D. C., March 22.—The regular order of business being demanded, Belford, Colo., appealed to the House to allow one hour to be devoted to the consideration of Senate bills on the Speaker's table, and the appeal proving ineffectual, he solemnly declared no more bills could be passed during the remainder of the session.

On the call for committee reports the following were submitted: Nichols, Weights and Measures, to establish an assay office at Deadwood. The House then went into Committee of the Whole on the bonded extension bill. Herbert resumed argument against the bill.

Thompson, Ky., supported the bill which he said presented the question as to whether the government would bankrupt one class of its citizens, when it did not require for any purpose the money which would fall due. He was not in favor of demanding the pound of flesh and expressed his surprise that his friends from the south (Blount and Herbert) should uphold such a policy, saying, "In the name of the law we demand bankruptcy for these people." The question of temperance was not involved in this measure, but if a few cranks in the House would vote for the bill it would result in keeping whisky in bond and out of consumption.

Milliken, Me., while denying that he was a temperance crank, inquired whether, even if the bill passed, whisky would not be taken out of bond in the course of time.

To which Thompson replied, it would pass into consumption, for he had never seen one of that class before making a speech who would not step behind the door and wet his whistle.

Clements, Ga., opposed the bill. Breckenridge, Ark., favored it. He made an exhaustive speech, in which he went into the history of legislation affecting the whisky industry, and described the hardships under which that interest now suffered, and maintained the equity and justice of the government in stepping in and saving it from bankruptcy.

Before the conclusion of the debate the committee rose.

Hancock, Tex., on the Committee on Appropriation, reported the pension appropriation bill. Sent to the Committee on the Whole. Beach, N. Y., offered a resolution calling on the Secretary of the Interior for copies of all leases made by him for the use, or occupation of any ground in the Yellowstone National Park, and also for information as to whether the leases had complied with the conditions of the lease and as to the provisions made to prevent the wanton destruction of fish and game in the park. Adopted.

Washington Gossip.
WASHINGTON, D. C., March 22.—Agent Rendon, of the Navajo agency in Arizona, who came to this city with a delegation of that tribe, who will endeavor to have the boundaries of that reservation extended and defined, has been suddenly interested by a dispatch from the agent stating that an outbreak of the Indians was imminent.

The Commissioner of Indian Affairs received the following telegram from Indian Agent Dyer, now with the Cheyennes on Tongue river, Montana: "Miles City, Mont., March 21.—Black Call's band has burned down Anderson's ranch. A cowboy shot an Indian, cause unknown. Particulars by mail. Great excitement prevails and I am afraid of trouble. Further particulars as soon as received. No mail or telegraph nearer than sixty-five miles."

In his report to the Commissioner of the General Land Office, George W. Fairchild, deputy United States surveyor of Nebraska, says: "All agricultural land that section has been fenced in by cattle men. Their ranges extend for hundreds of miles, and they have wire fences enclosing all desirable public lands, and even water courses are posted, at intervals, with notices threatening death to persons opening them. Herders assert that they hold these lands under the desert land and timber culture laws. The result is a complete check to persons attempting to make homestead settlements."

The House Committee on Appropriations completed its consideration of the pension appropriation bill. The measure appropriates \$24,684,400, and provides that any balance in the appropriation for the recent fiscal year, may be retained as unexpended on June 30, 1884, and shall be reappropriated. The appropriations in detail are for invalids, widows, minor children and dependent relatives, and for the survivors and widows of the war of 1812—\$20,000,000; for fees and expenses of examining surgeons, \$500,000; for pay and allowance of pension, for salary fees, for preparing vouchers, rent, fuel, lights and postage on letters to the executive

A BROKEN BANK.

THE NATIONAL OF BOULDER.

A Wealthy Merchant of Colorado and Utah Robs an Eastern Firm and Commits Suicide.

DENVER, Colo., March 22.—The failure of the State National Bank of Boulder, Colo., is attributed to loaning large sums on real estate security, which is deemed ample but upon which they were unable to realize speedily enough to assist in this crisis. It owes depositors about \$100,000. No crookedness is charged and the bank will undoubtedly be able to pay in full if the affairs are judiciously managed.

Suicide.
ST. JOE, Mo., March 22.—The Gazette's special from Denver, Colo., states that James B. Johnson, a former well known business man in this city, who had been in Union depot in that city yesterday, Johnson had robbed the wholesale drug house of Samuel J. Smith & Co. of St. Joe out of between \$18,000 and \$20,000 worth of goods and when confronted with the evidence of his crime, last Thursday, confessed and agreed to make restitution. He owned two drug stores, one in St. Joe, Colo., and the other in Salt Lake City and was on his way to these places in company with Mr. Thomas Van Natta, of the firm he had robbed, to turn both establishments over to him, when he committed the rash act. He leaves a wife and one child.

A LYING LIE.
Fryer Taken by Wounded Men and Strung Up.
MARTIN, Va., March 22.—Intense excitement prevails here over the lynching of Fryer. Last night twenty-five masked men rode up to the jail and took Fryer out in that city yesterday morning from town, and hung him. When the rope was put around his neck he was asked if he had anything to say. He said "Yes," and proceeded to give a full account of the cold blooded murder of John Pennington and wife which was committed in the middle of February near Frankfort. It will be remembered that John Pennington and his wife were found dead in their barn several days after the murder. They had been robbed and Mrs. Pennington was assaulted and afterwards killed by the inhuman brute who has now paid the penalty for his crimes.

The Kansas Legislature.
TOPEKA, Kans., March 22.—In the Senate a bill was introduced by Senator Mott for the protection of cattle against spinae, or Spanish fever, and was passed. The bill appropriating \$12,000 for the expenses of the special session was passed. When the House committee reported it for concurrence a motion prevailed substituting the Senate bill. The House refused to concur and returned the bill to the Senate, which refused to recede and called for a conference committee, which was appointed.

Will Investigate.
SANTA FE, N. M., March 22.—A dispatch just received from the Senate Committee on Territories, at Washington, states that the committee will fully investigate the New Mexico legislature, and ordering certified copies of all documentary evidence to be forwarded at once.

Poster Dead.
GALVESTON, Tex., March 22.—A News-San Antonio, special says: Joe Foster, a gambler and proprietor of the Variety theatre, who was shot in the leg during the recent memorable affray with the desperadoes Ben Thompson and King Fisher, who were killed on the spot, died today from the effects of the wound. Foster leaves a wife and a valuable estate.

Augustus Seized.
NEW YORK, March 22.—Augustus Schell, for many years prominently identified with the business and political life of this city and State, has been suffering from serious illness for many months past, and is now rapidly sinking and not expected to live.

The First Train.
CITY OF MEXICO, Mex., via Galveston, Tex., March 22.—The first through train of Pullman cars, with passengers, leaves today, the permission of the Governor having been received. The party consists of fifty persons, Mexicans and Americans.
